## AsaanRabta: Pricing Section Design Guide

**Goal: Maximum Value Perception & Conversion**

This guide focuses on the "Starter Plan" card design, optimized for the Pakistani business owner's psychology.

## 1. Visual Hierarchy: The "Look At This" Order

The eye should travel in this specific order to maximize the feeling of "Bachat" (Savings):

- 1.The Discount Tag: "57% OFF" (Brightest element)
- 2.The Price: "Rs 2,999" (Largest element)
- 3.The Comparison: "Rs 7,000" (Faded/Strikethrough)
- 4.The Features: The "Mehnati" list (Clear checkmarks)
- 5.The Action: "Start Your Free Trial" (High-contrast button)

## 2. Component Breakdown

### A. The Header (Urgency)

- Element: A thin, high-contrast ribbon at the top of the card.
- Text: "LAUNCH OFFER — LIMITED TIME ONLY"
- Style: White text on Asaan Orange (#FF6B00) background.

### B. The Price Block (The Hook)

- Original Price: ~~Rs 7,000~~ in Soft Grey (#A0A0A0), 16px.
- Current Price: Rs 2,999 in Trust Navy (#001F3F), 48px Bold.
- Billing Cycle: /month in Soft Grey, 14px (placed right after the price).
- Savings Badge: A small rounded pill next to the price: "Save Rs 4,001/mo".

### C. The Feature List (The Value)

Use Green Checkmarks (✓) for every item. This psychologically signals "Yes, I get this."

- AI Sales Agent: Highlight this as the first item.
- 1,000 Broadcasts: Mention "Eid & Flash Sales" in brackets to show use-cases.

- Lead CRM: Mention "Pipeline Tracking."
- 1 WhatsApp Number: Clearly state "Official Connection."

## D. The Call-to-Action (The Close)

- Button: Large, rounded (8px - 12px radius).
- Color: Asaan Orange (#FF6B00) with White text.
- Text: "START CLOSING SALES NOW" or "GET STARTED FOR RS 2,999"
- Hover State: Darker shade of orange (#E66000) to provide feedback.

## 3. Psychological "Nudges" (Pakistani-First)

Add these small text elements around the card to handle local objections:

- Below the Button: "No Credit Card Required" (Removes friction for non-digital-savvy users).
- The ROI Math: "One saved sale pays for the whole month." (Placed just below the price).
- The Safety Note: "100% Secure WhatsApp Connection" (Small icon + text at the bottom).

## 4. Mobile-First Optimization

Since most Pakistani business owners will view this on Instagram/Mobile:

- Full Width: The pricing card should take up 90-95% of the screen width on mobile.
- Sticky CTA: Consider a sticky "Get Started" button that appears at the bottom of the screen when the user scrolls past the pricing section.
- Tap Targets: Ensure the "Get Started" button is at least 48px high for easy thumb-tapping.

## 5. Visual Mockup Sketch (CSS-Friendly)

CSS

```
.pricing-card { border: 2px solid #FF6B00; /* Asaan Orange border for the "Featured" plan */ border-radius: 16px; padding: 32px; box-shadow: 0 10px 30px rgba(0,0,0,0.1); background: #FFFFFF; }
.price-main { font-size: 48px; color: #001F3F; /* Trust Navy */ font-weight: 800; }
.cta-button { background: #FF6B00; color:
```

```
#FFFFFF; font-weight: 700; text-transform: uppercase; letter-spacing:  
1px; }
```
